Your Healthy Garden – pests to look out for and how to treat them

Sluggo

1. To be published on Facebook

You can never be too prepared when it comes to slugs and snails! It only takes one slightly warmer and damp evening for eggs to hatch and adults to emerge, working their way through prized plants and edibles. Stock up on Neudorff's Sluggo Slug & Snail Killer* in preparation, click to buy www.neudorff.co.uk/products/sluggo-slug-snail-killer.html <please replace link by link to your own shop>

*Use plant protection products safely. Always read the label and product information before use.

Neudorff Sluggo & Sluggo Ultra* are metaldehyde-free which means the pests affected won't leave any slime trails. These effective pellets use iron-III-phosphate that stops the pests eating quickly, causing them to retreat to their burrows. Certified by the Organic Farmers & Growers association. Click to find out more www.neudorff.co.uk/products/sluggo-slug-snail-killer-ultra.html <please replace link by link to your own shop>

*Use plant protection products safely. Always read the label and product information before use.
